

CT3 PRO VENDING TESTER

COIN CHANGER & BILL VALIDATOR TESTER/SIMULATOR

CT3 PRO...
THE REFERENCE

The **CT3 Pro** is the most versatile testing device ever made for the vending industry. Designed for both the vending operator and vending technician or specialized service centre, the **CT3 Pro** is the only testing device capable of supporting multiple communication protocols used in the vending industry be it for coins or bills accepting devices.

Intuitive and performing, the **CT3 Pro** offers many features that are the result of SEM's long experience in the field of payment systems -whether they are multiple connectors adapting to a specific communication protocol, LED light for a quick diagnosis, interactive auto-test mode, simulation and calibration modes, and others.

The **CT3 Pro** is also equipped with SEM's exclusive SSPS protection against short-circuited peripherals, and a serial printer option for a printed test report.

In conclusion, the CT3 Pro offers a proven and up-to-date technology making it by far the most popular testing device in the vending world here and abroad.

CT3 PRO VENDING TESTER

COIN TESTER & BILL VALIDATOR TESTER/SIMULATOR

Imagine... a vending tester that allows you to test most type of coin changers, bill acceptors and cashless systems.

The CT3 can test† Single Price 120 V coin changers, Logic 12 or 15 pins, MDB coin changers, bill acceptors and most cashless systems as well as most pulse type bill validators.

Features such as the AUTO-TEST takes you step-by-step through the process of testing an item while a printer offers you a detailed report** on the device being tested. You can also simulate sales using the three programmable selections. Combined, these features make the CT3 an incomparable testing device.

Three options are offered for the CT3 Vending Tester. The external bill validator module for the testing of pulse type bill validators, a small portable desktop printer that prints out a detailed report and a simple but useful changer stand.

EBVM MODULE

FEATURES:

Dimensions AxBxC	7"x7 ¹ / ₈ "x9 ¹ / ₄ " (177x181x232 mm)
Shipping weight	10 lbs (4.54 kg)
Shipping weight with EBVM	11 lbs (4.99 kg)
Input Power	120V 60Hz
LCD Display type	2 x 20 w/backlite
Printer type	Serial RS232 9600-8-N-1

COMPATIBILITY:

Single Price 120 vac	Yes
Logic 24 vdc 12 pins	Yes
Logic 24 vdc 15 pins	Yes
Logic 117 vdc 12 pins	Yes
MDB Coin	Yes
MDB Bill	Yes
MDB Cashless	Yes (most of them)
Pulse type bill validator 120V*	Yes (with EBVM)
Pulse type bill validator 24V*	Yes (with EBVM)
Executive protocol	Not available at time of printing
Sales Simulations	Yes, 3 programmable prices

ACCESSORIES

External Bill Validator Module	A01070
Portable Desktop serial Printer	K00120
Changer Stand	A02980
Stand dimensions AxBxC	7"x14 ¹ / ₄ "x7 ¹ / ₄ " (177x364x185mm)
Stand shipping weight	4 lbs (1,2kg)
